

Forgotten Heroes of Wednesbury

**Wednesbury
War Memorial
Campaign Group**

Introduction

This is an ongoing book (in Wednesbury Library, reference) aimed at listing all the fallen heroes of Wednesbury in full detail. It follows the publication of our booklet of Wednesbury's 'Book of Remembrance' in 2009, (free from Wednesbury Library) which listed 623 men who gave their lives for King and Country in the two Great World Wars.

Further inquiry brought to light, another 390 and more men born or resident in Wednesbury (including Moxley and Kings Hill), who also gave their lives for King and Country in the two Great World Wars. This ongoing book lists these forgotten heroes, by full name, number, rank, regiment and date when they were killed or died of their wounds, so they are also likewise remembered.

For all the information already acquired in this book, we wish to acknowledge our thanks to The Naval and Military Press Ltd., and The Commonwealth War Graves Commission. Also, a special thanks to Andrew Johnson, whose valuable help has made this book possible.

More full details are still required for the 'Book of Remembrance' If you can help, please contact us.
